

AccuVIEW™ Order Confirmation

Feature	Texas Digital Advantage
12+ Years of Order Confirmation Experience and 20,000+ Installations	The most experienced provider in the industry with installations in all 50 states and 39 countries.
Embedded PC or Indoor Server Option	Supports both types of configurations for maximum flexibility. Our embedded PC version consumed only 33 watts of power reducing the solution's carbon footprint by 90% and the cost of ownership by \$1,000 over life.
NEMA 4X Compliant IP56 Rated	With a sealed electronics and ruggedized enclosure, AccuVIEW is the most reliable order confirmation display available.
Ambient Operating Temperature -40°F to 140°F	Ensures consistent operation in the harshest climates.
RoHS Compliant	The RoHS directive aims to restrict certain dangerous substances commonly used in electronic equipment. Our environmentally-friendly equipment passes those restrictions.
Leading Edge LCD Technology	Our LCD technology is rated to 50,000 hours to mean time to half life (MTTH), outputs up to 2,000 Nits and features a glass bonding and anti-reflective technology to optimize viewability and display life.
Support for more than 100 POS Systems	Our compatibility with more than 95% of available POS systems means even if you switch to another POS, your AccuVIEW will work immediately.
Global content management and store level content management capabilities	Multiple easy-to-use options that can be tailored to a franchisee or franchisor's needs.

The AccuVIEW Order Confirmation Board (OCB) enhances your drive-thru by improving order accuracy, increasing speed of service, influencing sales at the point-of-purchase and increasing drive-thru profits as well as your customers' overall experience.

As the world's most experienced provider of order confirmation displays with the most configuration options, why take a risk with any other vendor?
